## Career Objective

Front-End Developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, Bootstrap, and ReactJS. Completed a 6-month internship applying modern UI practices in real-world projects. Passionate about delivering clean, user-friendly interfaces and eager to contribute to product-based teams.

## Technical Skills

- Languages: HTML5, CSS3, JavaScript (ES6+)
- Frameworks/Libraries: ReactJS, Bootstrap
- Tools: Git, GitHub, VS Code, Chrome DevTools
- Other: Responsive Design, Cross-Browser Compatibility, API Integration

## Experience

**Frontend Developer Intern** | HUBSEM Solutions | Jul 2024 – Jan 2025

- Built and optimized responsive UI components in ReactJS, improving page usability and mobile experience.
- Collaborated with senior developers to enhance core features, leading to smoother navigation and improved user engagement.
- Applied Git/GitHub for version control, streamlining collaborative workflows.

## Projects

**Swiggy Clone Website (Sep – Dec 2024)**

- Developed a responsive Swiggy-like web application with landing page and home screen.
- Implemented dynamic and interactive components using HTML, CSS, Bootstrap, and JavaScript.
- Ensured cross-browser compatibility and mobile responsiveness.
- Maintained detailed GitHub documentation for scalability and collaboration.

**Weather and Clock Website (Jul 2024)**

- Created analog and digital clocks with smooth animations and transitions.
- Designed responsive UI layouts compatible across devices.
- Applied modular coding techniques for scalability and reusability.

**Health Insurance Customer Portal (Oct – Dec 2017)**

- Built a minimal portal to manage customer information for health insurance.
- Designed a clean UI with basic navigation using HTML and CSS.
